HealthGrid:
A Friendly Medical Summary

friendly

Once Friendly imports and processes your customer's medical data, the magic starts! HealthGrid transforms complex medical history, lab and imaging results and doctor's notes & prescription into a compact summary report, readable by humans.

Table of Contents

Cover page: At-a-glace summary of applicant's vitals & health history

Medical overview: Highlights notable impairments & abnormal lab results

Recent medication: Categorized list of drug prescriptions and dosages

Impairments: History of diagnoses, surgical procedures and illnesses

Rx→Diagnosis→Plan: A timeline of doctor's visits, reasons and results

Test results: Imaging, radiology and advanced medical test results

Lab results and trends: graphs & charts of historical medical tests

Abnormal Results

See all the recent problematic lab results in one place

Urinalysis

| Name	Last test	Last result	Reference
Appearance	01/08/2020	**Cloudy**	Clear
Ketone	01/08/2020	**Trace**	None
Blood	01/08/2020	**Trace**	None
Epithelial Cells	01/08/2020	**Trace**	None
Bacteria	01/08/2020	**Few**	< Few
Specific Gravity	04/25/2019	**1.0**	1.005-1.030

Medications

Shows a list of recent **prescriptions**, their **dosage** and **duration**

Medication is categorized into helpful groups, such as Antibiotics, Opioids, etc...

Reason→Diagnosis→Plan Timeline

Get the full story of a patient's doctor's visits and the corresponding diagnosis.

2022   2023   2024

Reason: Patient presents with a chief complaint of chronic headaches and fatigue.

Diagnosis: Clinical evaluation and history suggest a diagnosis of tension-type headaches

Plan: Initiate treatment with NSAIDs for pain management, recommend lifestyle changes
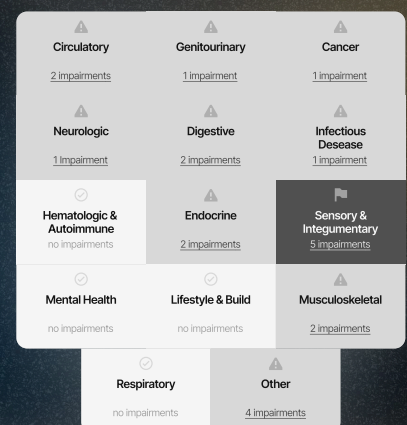

Lab Results & Trends

Condenses years of lab tests into user-friendly graphs that show lab results and historic trends, while visually highlighting normal ranges and abnormal results.
